HIS EXCELLENCY LORD ABERDEEN.

COUNTRESS ABERDEEN.

Britain's Financial Standing, April 30th, 1897.

Revenue.....	£103,950,000
Expenditure....	101,477,000
Surplus.....	2,473,000

Sir William Hicks Beach, the chancellor of the Exchequer, made the following statement:

"The national debt has been reduced £7,584,000 (\$37,920,000) during the year, and the total value of the British trade during the last financial year is £738,000,000, an increase of 5 per cent (or over \$185,000,000) over the previous year.

BRITAIN'S ARMED FORCE

A Million Soldiers Available

IMPERIAL DEFENCE.

The present state of the forces (officers and men) of the British Empire on land may be set forth thus:

Regular forces, home and colonial.....	156,000
Army reserve.....	85,000
Militia.....	122,000
Yeomanry.....	11,000
Volunteers.....	232,000
European forces in India.....	77,000
	683,000

The native army of India numbers 145,000 men. The Native Indian States have 20,000 men specially organized for Imperial service. Besides these, they have nominally large forces, out of which one-third

may be taken as effective for at least home service, in the British sense of the term—quite 100,000 men. To this must be added the colonial militia or volunteer forces (officers and men), embodied and trained:

The Canadian Dominion.....	34,000
Jamaica.....	2,000
Cape Colony.....	7,000
New South Wales.....	6,000
New Zealand.....	8,000
Queensland.....	3,000
South Australia.....	2,000
Victoria.....	5,000
Total.....	67,000

This, added to the previous figures, brings up the total to 1,015,000. This represents a peace establishment consisting of men either under arms at the shortest notice.

The British Empire in India.

As to the good government of or otherwise, by the British, it must be remembered that its native population is now fully 300,000,000, whilst the British born residents scarcely exceed 100,000.

The area of the country is immense. It extends over a territory larger than the continent of Europe without Russia. The languages of the country are at least 78 in number grouped into some twelve sections or families.

THE VICEROY OF INDIA.

The Governor-General is Viceroy of India, and is entitled to a royal salute, taking rank next to the Queen herself, and before all other members of the royal family. He

is the supreme ruler of 300,000,000 of the human race and of forty-two native royal princes from the ruler of Hyderabad, with his 11,000,000 of subjects, to the native Prince of Kalsia, who represents a little state of 15,000 Jat Sikhs.

The Viceroy's income is equal to about \$124,800 per annum.

THE NATIVE POLICE.

The police force of India is largely made up of natives. The highest officers are Englishmen, but the chief work of the force is done, and very excellently done by the natives.

Canadian Loyalty.

REFERENCE TO IT IN THE QUEEN'S SPEECH.

LONDON, Aug. 6, '97.—It was in part as follows:

"I have given notice to the King of the Belgians and the German Emperor to terminate the treaties of 1862 and 1865 whereby I am prevented from making with my colonies such fiscal arrangements within my empire as seem to be expedient.

COLONIAL ATTACHMENT.

The presence of representatives of the colonies and India at the ceremonies of the celebration of the sixtieth year of my reign has contributed to the strength of the bond of union in all parts of my empire, and additional proof of the attachment of the colonies to the mother country has been furnished in the fiscal year legislation of Canada and

the contribution that Cape Colony, following the example of Australasia, has offered for our naval defence.

Britain since 1837.

In making his budget speech in June last (1897,) Sir Michael Hicks-Beach took advantage of the occasion to look back over the Queen's reign and recite a few interesting facts.

The total revenue of the nation in 1836 was \$52,500,000, and in the year just closed it was £112,000,000.

The total foreign trade of Great Britain in 1836 amounted to £125,000,000, whereas last year it was nearly £738,000,000.

The deposits in the savings banks in 1836 amounted to £18,750,000, and last year's deposits totalled up to £155,000,000.

In 1836 no less than eight cents to send a letter 15 miles in the United Kingdom; it cost 24 cents to send a letter 300 miles, and to send a letter to South America it cost 84 cents.

While in 1836 the annual interest of the debt was a yearly tax of over \$5 per head of the population it is now only \$2.16 per head.

In 1836 the total cost of the monarchy to the taxpayers was £534,000.

Wages have risen, houses are better, healthier, food and clothing are cheaper, and best of all crime has enormously diminished.

Canada and its Money.

In 1858 the province of Canada adopted the present coinage of dollars and cents and made these with a pounds, shillings and pence the only moneys of account. In 1871 the federal parliament fixed a uniform currency for the Dominion, the English sovereign to pass current at 486 and two-thirds cents. The gold eagle of the United-States was also made legal tender. Silver coins are legal tender to the amount of \$10, and minor coin to 25 cents.

The first issue of government notes was limited to \$5,000,000, and 3,000,000 to replace notes if banks surrendering their power of issue. When the Dominion was formed this issue was raised to \$8,000,000. Since then it has been raised to \$20,000,000, and any excess of this amount must be covered in gold. \$14,358,500 of the Dominion note circulation are in notes of \$500 and \$1,000, used chiefly in settlements between banks.

The average monthly circulation of Dominion notes is \$21,397,750, and of this \$13,834,666 is of the \$500 and \$1,000 denominations; \$232,300 of \$50 and \$100; \$369,439

the redemption of notes in circulation is a first charge, then amounts due to the Dominion government, and amounts due to the provincial governments.

Canadian Progress.

In 1837 there was an area of some 500,000 square miles and a population of 1,400,000. Now Canada extends from ocean to ocean, with an area of 3,315,647 square miles, and a population over 5,100,000.

The total foreign trade of the colonies, now Canada was in 1837 about \$29,000,000. In 1893 it was \$246,000,000. The exports in 1837 were \$12,600,000 and in 1895 they had increased to \$113,638,803.

In 1837 Canada's population was 1,101,685. In 1891 it had grown to 4,833,239.

They were Teetotalers.

Lady (engaging servant).—I ought to tell you that we are all strict teetotalers here. I suppose you won't mind that?

Mary Jane. — Oh no, mun. I've been in a reformed drunkard's family before!

Hon. Sir WILFRED LAURIER,
Premier of Canada.

of \$4, \$5, \$10 and \$20; \$6,743,555 of \$1 and \$2 notes.

It was in 1817 that the first bank was established in Canada, the Bank of Montreal, followed the next year by the Bank of Quebec in Quebec. These were not granted a charter till 1821.

It was between 1821 and 1836 many banks sprang up, among them being the Bank of British North America.

About 1835 the government provided for the establishment of private banks authorized to issue notes under certain limitations upon depositing with the government provincial debentures to the amount of the contemplated issue.

At the present time the capital stock of any company to secure a charter must reach \$500,000, and of this \$250,000 must be paid to the Receiver General. Every bank has to pay to the Finance Minister 5 per cent on the average amount of its notes in circulation, this being called the Bank Circulation Redemption Fund to be used on the suspension of any bank for payment of notes issued. In case of insolvency

Post Office Savings Bank.

Statement for the year ending
30th June 1897:

Deposited during the year \$8,223,000, being an increase of \$84,000 over the previous year.

The amount of interest allowed to depositors during the year was \$1,024,000.

The total amount on deposit in the bank at the close of the year was \$32,380,000 as compared with \$28,932,000 in the previous year.

Realist and Idealist.

"I tell you sir," said the realist, "I don't believe in talking anything for granted. In other words, I don't believe in anything that I can't see."

"Am I to understand," returned the idealist, "that you never have kissed a girl in the dark?"

Thus we see that the theories of a realist may go down before the realism of a theorist.

China and Japan.....	3,339,334	2,906,574
Total.....	218,424,478	211,914,159

DUTY COLLECTED.

In 1896 the duty collected on the \$32,979,000 of imports from Britain amounted to \$7,358,514, and on the \$58,574,000 of imports from the States it was \$7,769,632. British goods therefore paid 22 2/3 per cent, and American goods 13 1/3 per cent., or a difference in favor of American goods to the extent of 9 per cent.

They Die a Natural Death.

English Tourist (in the far north, miles from anywhere)—Do you mean to say that you and your family live here all the winter? Why, what do you do when any of you are ill? You can never get a doctor.

Scotch Shepherd—Nae sir. We've just to dee a natural death.

HEARD AT THE JUBILEE.

The "JUBILEE" procession was passing bye
And the millions stood abreast
And gazed about with watchful eye
For our Laurier amongst the rest.
It was then amidst the uproar high,
And heads were turned East and West;
Above all voices was heard the cry—
Why! WARNOCK'S Bread is by far the best.

For Durability and Quality unsurpassed.

Sir Oliver Mowat on Annexation.

"Sir Oliver Mowat at Niagara: I believe that the great mass of our people would prefer independence to political union with any other people. And so would I. As a Canadian I am not willing that Canada should cease to be. I am not willing that both our British connection and our hope of a Canadian nationality shall be destroyed forever. (Cheers). Annexation necessarily means all that. It means too the abolition of all that is to us preferable in Canadian character and institutions as contrasted with what in these respects our neighbors prefer. Annexation means at the same time the transfer from ourselves to Washington of all matters outside of local provincial.—*Ottawa Journal*, July 19th, 1893.

Intercolonial Railway.

The Intercolonial Railway has cost the country up to date somewhat over \$55,000,000. Since 1868, when the road had its beginnings, the deficits have exceeded the surpluses by more than six million dollars. The following is the statement year by year:—

	Surplus.	Deficit.
1868.....	\$ 60,792
1869.....	67,475
1870.....	26,036
1871.....	122,720
1872.....	27,825
1873.....	\$308,435
1874.....	953,745
1875.....	670,996
1876.....	281,065
1877.....	507,229
1878.....	447,120
1879.....	738,984
1880.....	89,636
1881.....	1,257
1882.....	19,724
1883.....	11,558

Hon. Sir OLIVER MOWAT,
Lieut.-Governor of Ontario.

by companies are essentially separate and distinct. The government telegraph system is in conjunction with the Public Works department. It was in 1880 that the government system had its birth. There are 2,692 miles of line altogether in the hands of the government. Of this 2,486 miles are inland lines and 206½ knots cable. The revenue for 1895 was \$8,331,56 against an expenditure of \$49,878.

God Bless us All.

God bless our native land
With peace, prosperity and health;
Be thou, by Thy strong hand,
Her sure defence and wealth.

Long may her sons Thy gifts enjoy,
And in Thy service find a sweet employ;
Faithful and true to Heaven's plan,
Marked out by prophets for the Saxon man.

The noble sires from whom we came
Fought, bled and died for freedom;
Let us their birthright well maintain,
And to our children leave as pure a name.

God bless our Church with true progress;
God bless our Canada with sure success;
God bless our Queen with life and favor;
God bless us all, now and for ever.

J. T. JOHNS,
Journalist.

The quantity of grain passed down the St. Lawrence canals to Montreal was 231,491 tons, a decrease of 42,160 tons, as compared with the previous year.

On the Ottawa river canals the total quantity of freight moved was 541,320 tons, of which 532,084 tons were produce of the forest.

The Telegraph in Canada

The government telegraphs and the commercial enterprises operated

Sir Wilfrid Laurier as a Leader.

Mr. Laurier, has displayed some of the highest qualities of leadership as chief of the opposition.

He assumed the leadership at the darkest hour of Liberalism in Canada.

But Mr. Laurier took his position with judicial calmness. He let the dead past bury its dead, turned to the future with hope and, gradually, by his genius for organisation, his tact, his capacity for unwearied application to work and his personal magnetism, exercised with equal success on masses of people as upon individuals, he consolidated his party, infused new life in it and in the end, carried it to victory. *Ottawa Journal*, Aug. 22, 1896.

The Cost is Heavy.

It costs the people of the United States \$25,000,000 a year to be born, \$300,000,000 a year to be married and \$900,000,000 to get drunk.

W. C. EDWARDS, M.P.,
Russell, Ont.

The Lunatic and Mr. Brown.

Lunatic (suddenly popping his head over asylum wall)—What are you doing there?

Brown—Fishing.

Lunatic—Caught anything?

Brown—No.

Lunatic—How long have you been fishing?

Brown—Six hours.

Lunatic—Come inside.

A Noble Man.

Mr. Passmore Edwards, proprietor of the Echo, a London hall penny paper, devotes the profits of it and of other publications which he owns to the erection of useful public institutions. During the twenty years he has acted on this principle 49 buildings have been erected, are being erected or will be immediately erected as a result of his munificence. Twenty-five of these are public libraries, literary institutes or mechanics' institutes, or other educational institutions, and nineteen are hospitals or homes for the afflicted.

Canada's Illustrated Historical and Literary Jubilee Souvenir.

JAMES T. JOHNS & Co.,
Publishers.
Ottawa, Jan. 1st, 1898.

To Our Readers

And to those who have assisted in the publication of this *Souvenir* by contributing their advertising patronage and subscribing, we extend a thankful and a hearty greeting. No more opportune time, we believe, could be selected to furnish, in as brief a form as possible, information showing the progress achieved by Great Britain, Canada and the Province of Ontario, and it is with pride that we place before the world a record of British ascendancy which stands unequalled by any nation throughout the Globe. To the patriotic, the studious, the public official, the teacher, etc., the contents of this *Canadian Souvenir* cannot help being a welcome visitor, and an interesting and instructive publication. Those who admire Great Britain and with pride read of her progress, and those of Canada who have faith in her great future possibilities will accord this *Souvenir* a buoyant New Year's greeting. Our issue, we acknowledge, is not complete, but in substance it furnishes such information as will suffice to acquaint the world with the growth and grandeur of Great Britain and British Possessions.

The greeting's of the New Year to all.

Yours, etc.,
JAMES T. JOHNS & Co.,
Publishers.

Advertising.

Advertising is like learning, "a little is a dangerous thing."—P. T. Barnum.

Frequent and constant advertising brought me all I own.—A. T. Stewart.

I would as soon think of doing business without clerks as without advertising.—John Wanamaker.

Constant and persistent advertising is a sure prelude to wealth.—Stephen Girard.

Facts about the British Empire.

Half the ships in the world are British.

We have a million of soldiers in India.

We can travel entirely round the world without leaving the British Empire.

The British Navy is as large as that of France, Germany and Russia combined.

There are 400 millions of people in the British Empire.

"God Save the Queen" is sung in 20 languages.

We own one-fourth of the railways in U. S. America.

And half the railways in South America.

We own the largest part of North America, that is, Canada.

The house property in the British Isles is valued at \$2,000,000,000.

The railways at \$200,000,000.

The shipping at \$120,000,000.

There are 1,000 miles of Tramways in the British Isles.

London is as large as New York.

Imperial representation.

London, Eng., July 5, 1897.—Sir Wilfrid Laurier, the Dominion Premier, to-day addressed a meeting of members of the House of Commons known as the Colonial party.

Sir Wilfrid Laurier, who was cordially received, urged the direct representation of the colonies in the Imperial parliament, which ought to be, he contended, a grand national council or Imperial federal parliament.

Millionaire Barnato.

Barney Barnato, when a boy, once carried potatoes and coal for an old man in order to earn 50 cents to buy a much-coveted necktie. The old man gave him only 35 cents after the work was over, and Barnato earned the rest of the money by doing conjuring tricks in saloons and passing round the hat afterward.

Don't, but try to be a man.

Don't stand around and wonder why some men succeed. Go to work and discover how they made success possible.

I.O.O.F. MONUMENT, Toronto.

Paris and Berlin combined.

It is 90 miles in circumference.

There are as many inhabitants as there in Sweden.

The rental is about \$16,000,000.

Railways of Canada.

A report of the railway administration in India shows that there were last December 20,390 miles of railroad opened for traffic.

Salary of the French President.

The President of France has a salary of \$120,900 a year with \$120,000 more for entertaining and travelling.

Words of Wisdom.

Go out and do a good work to humanity, and you will do more than if you prayed in your church from morning to night.

Populations of great cities.

London, 1891.....	4,231,431

Worms Save Us From Starvation.

In old pastures in England the worms are estimated at 22,000 to the acre, and as many as 54,000 in richly-cultivated gardens. The number of worms in the rich pasture lands near Auckland, New Zealand, is estimated at from 400,000 to 800,000 to the acre. Were it not for the earthworms soils would become barren, and half the world would die of starvation.

God Save the Queen.

Dean Hall has rewritten the second stanza of the national anthem. Here is the stanza as it has stood for almost two hundred years:

O Lord our God arise,
Scatter her enemies,
And make them fall;
Confound their politics,
Frustrate their knavish tricks,
On Thee our hopes we fix;
God save us all.

Here is the venerable dean's amended version:

O Lord our God, arise,
Scatter her enemies,
Make wars to cease;
Keep us from plague and dearth,
Turn Thou our woes to mirth,
And over all the earth
Let there be peace.

A Splendid Record.

ONTARIO'S PROGRESS SINCE 1871.
A SURPLUS OF \$5,258,324.

Prior to the general elections of 1871 which brought the Liberals into power, the right to vote at Parliamentary elections was confined to owners, tenants or occupants of real property to the value of \$400 in cities, \$300 in towns and \$200 in townships and incorporated villages, and the law required the deputy-returning-officer to record the votes given for each candidate at his polling place, the voter stating publicly for whom he voted. Since then the following changes have taken place (1) Extending the right of voting to persons earning an income of not less than \$400. (2) Introduction of voting by ballot. (3) Voting by ballot at municipal elections. (4) Voting by ballot on municipal by-laws which are required to be submitted to the people. (5) The franchise extended to farmers sons. (6) Confering the right of voting on practically all wage-earners. (7) Manhood suffrage established for the legislative assembly.

ONTARIO'S POPULATION.

1871.....	1,620,834
1881.....	1,923,228
1891.....	2,114,321
1896.....	2,262,367

An increase in 25 years of 641,533.

LABOR NOT NEGLECTED.

Under this heading great progress has been made, and numerous acts for the protection of labor enacted. (1) The mechanics Lien act. (2) An act to facilitate agreements between masters and workmen. (3) To facilitate the adjustment of disputes between masters and workmen. (4) To make free from seizure or attachment the wages or salary due to a labor mechanic or servant, unless the sum due to him exceeds \$25, and then only for the amount of such excess. (5) To make provision for the safety of railway employees and the public. (6) The Ontario Factories act. (7) Protection for employees in case of an assignment of real or personal property. (8) To secure compensation to workmen for personal injuries. (9) To protect the Ontario laborer from oppressive competition of foreigners.

PROVINCIAL RIGHTS DEFENDED.

For a number of years the Ontario

government was engaged in resisting unjust and unwarranted encroachment on Provincial Rights, and Ontario won every time.

THE INSURANCE CASE.

The Privy Council decided in favor of the Statute First blood for Ontario.

THE ESCHEATS CASE.

The Privy Council decided in favor of Ontario. Second blood for Ontario.

THE RIVER AND STREAMS BILL.

This was three times disallowed by the Dominion Government, and as often enacted by the

QUEEN'S COUNSEL.

On December 8th 1897 the Minister of Justice was officially informed that the Privy Council had affirmed the decision of the Appeal Court of Ontario affirming the power of the Lieutenant-Governor of the province to appoint Queen's counsel.

The decision means that not only Ontario, but every province, has the right to appoint Queen's counsel for their own courts. The Dominion disputed this right.

The Ontario statute over which this controversy arose was passed in 1877. The trouble is thus twenty years old.

P.G.M., J. R. REID,
I.O.O.F., Ottawa.

making Ontario, in the matter of such accommodation, one of the most adequately equipped countries in the world.

DRAINAGE INVESTMENTS.

The amount invested in Municipalities for drainage, the province taking as security, municipal debentures, is nearly \$2,000,000.

INSTITUTIONS MAINTAINED BY THE PROVINCE.

The Public Institutions maintained entirely at the cost of the province include:

- Central Prison.
- Mercer Reformatory.
- Penetanguishene Reformatory.
- Lunatic Asylum, Toronto.
- " " London.
- " " Hamilton.
- " " Kingston.

Idiot Asylum, Orillia.
Institution for the blind, Brantford.
Institution for deaf and dumb, Belleville.

And the following are partially maintained by the province:

- 50 County jails.
- 20 District lock-ups.
- 22 Hospitals.
- 23 Houses of refuge.
- 30 Orphans asylums.
- 5 Magdalen asylums.

AGRICULTURE, FORESTRY, HEALTH, IMMIGRATION, ETC.

The following are a few of the many Acts passed to foster and protect the above:

(1) Compulsory cleansing of private premises (2) The Agricultural College, Guelph, opened (3) Townships authorized to borrow money from the Provincial Government to enable farmers to drain their lands (4) Protection of plum and cherry trees (5) Protection of peach and nectarine trees (6) Bureau of Industries established (7) Creation of a permanent Board of Health (8) A new tree planting Act (9) To prevent the spread of noxious weeds (10) Appointment of an Advisory Board of practical agriculture (11) Commissioner of Agriculture given full ministerial powers and the office of Minister of Agriculture created

Ontario Government. The Privy Council decided that Ontario was right. Third blood for Ontario.

THE LIQUOR LICENSE CASE.

The Privy Council decided in favor of Ontario.

Fourth blood for Ontario.

THE BOUNDARY CASE.

The Privy Council decided in favor of Ontario.

Fifth blood for Ontario.

THE TIMBER AND MINERALS CASE.

The Privy Council decided in favor of Ontario.

Sixth blood for Ontario.

Seventh blood for Ontario.

COLONIZATION ROADS.

To make accessible and valuable the Free Grant Districts nearly 5,000 miles of new roads have been built; nearly 10,000 miles repaired, and nearly 70,000 feet of Bridges built.

RAILWAY AID.

The Ontario Government has paid to municipalities, under the Municipal Loan Fund Act as aid to Colonization Railways nearly \$2,500,000 and to Railways direct nearly \$10,000,000. As a result nearly 4,000 miles of railway have been built

Prosperous and Progressive!!!

The above has ever been the
Watchword of . . .

THE SUN LIFE ASSURANCE COMPANY OF CANADA.

The accompanying cut of the ornate structure erected by the company at the junction of the two main business arteries of the city is a most impressive object lesson on the progressive spirit of the SUN LIFE'S EXECUTIVE. and it is needless to say that this action is highly appreciated by the Citizens of Ottawa generally.

Of course the SUN LIFE is practically and intimately identified with Ottawa by its long list of policyholders, but this handsome building will permanently identify the company with the Capital City of the Dominion.

(12) To provide against fraud in supplying milk, cheese and butter (13) To prevent the spread of contagious diseases (14) Suppression of foul brood among bees.

IMMIGRATION.

The number of immigrants—not working people, nor skilled, nor unskilled labor, but farmers with means and domestic services—brought into the province is over 500,000, whose effects had a valuation of over \$7,000,000.

THEY TELL THE STORY.

Under the invigorating aid and assistance given by the Ontario government all of the following institutions have been created and are flourishing:

- The Agriculture and Art Association.
- The Veterinary College.
- The Agriculture and Horticulture Societies.
- The Fruit-grower's Association.
- The Entomological Society.
- The Dairy-men's Association.
- The Poultry Association.
- The Bee Keepers Association.
- The Ontario Creameries Association.
- The Farmers Institutes.

EDUCATION.

Ontario is the pride of Canada for her educational facilities. She is recognized, in this line, as equal to the best in Europe, Canada or any where on the American continent. Money, time, study and experience have been used freely and un begrudgingly to place the province in educational matters in the supreme position in which we find her today, and which she has occupied for years. Since 1871 (1) A school for practical science for instruction in mining, engineering and the mechanical and manufacturing arts has been created (2) Two inspectors of public school have been appointed (3) The counties of Prescott and Russell were authorized to open a model school for the training of French teachers (4) \$50,000 was voted for enlarging the school of practical science (5) The government voted \$600 for the sustenance of the French

model school at the village of Plantagenet (6) \$15,000 was voted for supplying the necessary machinery and apparatus for a complete course in civil engineering, mining engineering and mechanical engineering.

EVIDENCE OF PROGRESS.

In 1871—There was one Normal school.

In 1889—There was two Normal schools.

In 1871—There were no county Model schools for training teachers.

In 1889—There were 58 county Model schools for that purpose.

In 1871—There were no training Institutes for High School masters.

In 1889—There were 5 training Institutes for that purpose.

In 1871—There was no Art school for teaching mechanics, etc.

In 1889—There were 8.

In 1871—There were no properly organized Teachers Associations.

In 1889—There were 66 Teachers Institutes attended 6882 teachers.

In 1871—There were only 51 Mechanics Institutes.

In 1889—There 179 such institutes, with libraries aggregating 252,832 volumes. To the assistance of these up to 1889 the Ontario

and even in some cases for business purposes, is a matter of considerable importance to them. We will not allow our opponents to assume that all this zeal for one national language is the outcome of patriotic enthusiasm for the unification of the country and the perpetration of civil liberty. I think it requires but little penetration to see though their veil of hypocrisy under which all their pretensions are concealed.

A few years ago, Prescott, Russell and Essex were represented in the Local Legislature by conservatives. There was no cry then of French aggression, and French invasion. So long as they (The Tories) received the political support of the Frenchman he was a good, intelligent, progressive citizen, but when he became a Liberal, and showed his appreciation of the Mowat Government he is "a South African Hottentot and a garlic eater, his children are half naked, and his wife takes weeding onion beds and fishing in the nearest stream (cheers and laughter). Charming gratitude this, to say the best of it.

G.C.P., GEO. BELL,
I.O.O.F., Ottawa.

On capital account \$186,180; other purposes, \$19,500; amount of estimates \$3,397,367.

Press Comments.

During the ensuing year the Ontario provincial grants to education will amount to \$721,382.08; in the same period Quebec will grant \$430,010 for education. This is one line in which Ontario's people can contemplate increasing expenditure with satisfaction.—*Ottawa Journal*, (conservative) Dec. 17 1897.

A difference between Ontario and Quebec Budgets is that Quebec has \$1,550,574 to pay each year as interest on her public debt, while Ontario has no public debt.—*Ottawa Journal* (conservative) Dec. 15th, 1897.

ONTARIO PARLIAMENT BUILDINGS.

Government had contributed \$108,314.

HIS PATRIOTIC UTTERANCES

Speaking in Toronto in June 1890 Hon. Mr. Ross, Minister of Education, referring to Mr. Craig's Bill, introduced in the Legislature, and which "opposed the training of teachers for French Schools" and provided that "the English language only should be taught" said: "In dealing with French and German in our Schools, we will not allow our French and German citizens to be regarded as aliens. They are not aliens in any sense of the term (cheers). I must be allowed to repudiate in the strongest terms the narrow sectionalism which appears to have taken such stronghold upon some people, as entirely repugnant to the development of a national spirit and the unification of the people of this country.

If the British Government can tolerate French in the Channel Islands, Welsh in Wales, Gaelic in Scotland and Erse in Ireland, we can surely allow our French and German fellow citizens to receive instruction in the language which for social and domestic purposes

Greece's Story.

HER STRUGGLES FOR LIFE AND
LIBERTY.

Under the guidance of the shrewd Danish Prince, George, whom they chose as their King in 1863, the Greeks have been steadily growing in importance. Province after province of their ancient empire has been wrung from the Turks. Thessaly was the last to be torn from the Moslem power, coming back under Greek jurisdiction by treaty in 1881.

Her annals are replete with battles fought against the most overwhelming odds. From Thermopylae, in 480 B. C., where 300 Spartans and 700 Thespians, under the Greek Leonidas, gave battle to more than 200,000 Persians in Tripolitza, where a handful of Greek patriots, on October 17, 1821, routed a vast force of Turks, there is an almost endless list of conflicts into which the Hellenese went with unwaveringly against foemen who outnumbered them over and over again.

ANCIENT BATTLES.

1—Battle of Marathon, September, 490 B. C. Under Miltiades 11,000 Greeks defeated 100,000 Persians.

2—Battle of Platea, 497 B. C. Under Pausanias 110,000 Greeks defeated 300,000 Persians.

3—Naval battle of Salamis. The Greek fleet under Themistocles, defeated Persian ships outnumbering them ten to one.

4—Battle of the pass of Thermopylae, 480 B. C. One thousand Greeks defended the pass for days against more than 200,000 Persians.

5—Battle of Chaeronea, 338 B. C. Philip of Macedonia, father of Alexander the Great, defeated the Athenians and Boeotians.

MODERN BATTLES.

6—Battle of Tripolitza. A small force of Greeks took the Turkish fortress by storm, A. D. 1821.

7—Battle of Portras, A. D. 1821. Greek patriots to the number of 5,000 defeated four times their number of Turks, A. D. 1823.

8—Battle of Corinth. Decisive victory won by the Greek patriots over the Turks, A. D. 1824.

9—Battle of Missolonghi. The Greek patriots under Marco Bozaris and Lord Byron repelled the Turkish army in its full strength, A. D. 1823.

10—Naval battle of Kaphireus. A small fleet of Greek ships defeated

the Turkish squadron, A. D. 1825.

Alexander started out on the conquest of the East in 334 B. C. His father, Philip Macedon, had established himself firmly in Greece in 338 B. C., and was chosen to lead the allied armies against the Persians. Alexander succeeded to the throne in 336 B. C., and after crushing what opposition remained in Athens, began his tour of conquest. For ten years he cut his way at the head of his forces through the richest lands of the world, subjugating empires, kingdoms and principalities. He died at Babylon in 323 B. C., and from that time Greek power began to crumble, until there came the total subjugation of the Grecian people.

Out of the wreck there rose the new kingdom of Greece in 1821 A. D., as the result of the revolution against the Turks.

It took seven year's fighting on the part of the Greeks to gain independence, and them only to find new troubles in civil strife. There were revolutions and counter revolutions until George was elected to

HON. SIR LOUIS H. DAVIES,
Minister of Marine and Fisheries.

the throne. Since then the country has been quietly forging ahead in spite of the handicap of weakness and poverty. Every change has been for the better, and every few years has seen the addition of a new slice of territory, even if it was only a small island.

Education in Quebec.

Imperial Forces and their Cost.

SIR CHARLES DILKE ON THIS SUBJECT.

The total expenditure upon Imperial defence by the British Empire in the financial year 1896-97 was about sixty-one millions sterling at the least.

The expenditure without counting that of the self-governing colonies, was £59,306,000. Of this our land forces accounted for £35,056,000, and our sea forces for £23,850,000.

The total expenditure upon the navy in every form, including naval works and Indian marine, is under twenty-four millions sterling.

Our ships cost us far less than the price of similar ships built by other powers; and they are, on the whole, at least as well built.

British Columbia Minerals.

The aggregate product for the last seven years are as follows:

Year.	Value.
1890.....	\$2,668,608
1891.....	3,546,799
1892.....	3,017,971
1893.....	3,588,413
1894.....	4,225,717
1895.....	5,655,302
1896.....	7,146,425

British Columbia's minerals have produced wealth amounting to the enormous sum of over \$100,000,000 as follows:

Gold (placer).....	\$ 57,704,855
Gold (lode).....	2,177,869
Silver.....	4,028,224
Lead.....	1,606,427
Copper.....	254,802
Coal and coke.....	33,934,427
Building stone, bricks, etc.....	1,200,000
Other metals.....	25,000

Total.....\$100,931,604

Canadian Jubilee Address.

Sir Wilfrid Laurier, in moving the adoption of the Jubilee Address of the Canadian Parliament to Her Majesty on June 2nd, said in part: "It has been our privilege, to live under what is certainly one of the most illustrious reigns in all history, certainly the most glorious of British history. * * * The personality of the sovereign herself has been higher in everything than has been tended to cultivate and adorn her reign. * * * Perhaps one of her chief glories, perhaps the chiefest of all her glories, is that so far as she has been a sovereign, she has been in every sense a model constitutional sovereign."

Fisheries of Canada.

Salmon last yielded in Canada \$3,700,000. Next in value comes herrings, \$2,786,000, and then lobsters, \$2,210,000.

The City of Ottawa.

The City of Ottawa, capital of the Dominion of Canada, situated on the bank of the Ottawa River, is 120 miles from Montreal, the same distance from Kingston, 75 miles from Brockville, and 280 miles from Toronto, and is reached by steamers on the Ottawa River and the Rideau Canal, Canadian Pacific, Canada Atlantic, Ottawa, Arnprior and Parry Sound, Ottawa and Gatineau, Pontiac and Pacific Junction and Ottawa and New York railways.

By-Town (now Ottawa) was founded in 1827, in January 1855, it was incorporated as a city with 10,000 of a population and selected as the seat of Government by Her Majesty the Queen in 1857.

It is the centre of great lumbering operations of the Ottawa Valley, and in the manufacture of square timber and sawn lumber.

The following table shows the growth of the city:

Incorporated as a town the population of By-Town was....	5,000
1855.....	10,000
1861.....	14,669
1871.....	21,545
1881.....	31,307
1891.....	44,154
1897.....	53,725

Mayor Bingham.

OTTAWA'S MAYOR FOR 1898.

Mr. Samuel Bingham, by acclamation, has become Ottawa's Mayor for 1898. After a year's service as Chief-Magistrate, which for earnest devotion to the city's interests is unsurpassed Mayor Bingham of 1897, without opposition has become Mayor Bingham for 1898. There was no dark horse in the field. Imagination created one. Reality blighted imagination's hopes, and exposed its untenable position. He who would have opposed Mayor Bingham in his seeking a renewal of the electors confidence, would have shown a rare daring front, and the attitude of one who was willing to enter the contest for the sake of showing fight, and with the full expectation and knowledge that defeat awaited him. Under such circumstances there are few in number who would face an opponent whose record for the past year is illuminated with

For his opposition, while an alderman, to the wild-cat schemes which during his term, were introduced into the council. (4). For the reforms he introduced and the monies he saved the city. (5). For his citizenship and record of half a century. These fortified with the claims that, through his efforts, while he was chairman of the board of works the steam-roller was purchased, that at his own expense, when the Rideau bridge had become unfit for public traffic, he had had it repaired that through his efforts the Sparks street pavement became an accomplished fact and that it was he who introduced and had adopted by the council, Rule 100, which prohibits the expenditure of any and all public monies until the sanction of the finance committee and the council has been secured, gave him the election by a large majority. The total vote cast was 7,139, divided as follows: Bingham 2,712; Crannell 2,558; Cluff 1,869.

Now the question is what has he done during his term of office? or rather what has he not done! No

SAMUEL BINGHAM, Esq., Mayor of Ottawa.

watchful, faithful and devoted service to the city's interests, and at times when such services were evident to all common sense and common decency should keep silent from opposition until a better and more opportune time had arrived all whose inclinations and ambition prompt them to aspire to the Chief-Magistracy of the Capital. During the year just ending Mayor Bingham has never lost an opportunity to look after and protect the city's interests, while his charitable deeds, courteous and kindly bearing, and his ever-ready willingness to accede to every reasonable request are well-known and well recognized and well appreciated by all right thinking people. When Mayor Bingham was soliciting the suffrages of the electors last year— he based his claims upon five special points. (1) His length of service as alderman in the city. (2). For what he had accomplished for the city while he was an alderman. (3).

man could do more. Day and night he has day in and day out devoted himself to the city's interests. When the cry came from India for help he was one of the first to extend the helping hand, and \$100 of his good money went to swell the famine fund. He presented the city of Ottawa, after he had spent hundred of dollars on it to convert it from a mud hole into a comfortable and respectable leisure spot, with "Bingham Square". His yearly civic allowances of \$1,000 he gave to the various charitable institutions and hundred of dollars from his private purse he gave to help the needy. To the Central Canada Fair he gave a medal, time, attention and assistance. When fire devastated Casselman and other points along the line of the Canada Atlantic who more readily went to the assistance of the distressed inhabitants than he? To the Interprovincial Bridge question, the complete drainage of the city, local street improve-

ments, public baths, an hospital for incurables, the Ottawa and New York railway, the annexation of Hintonborough and Janerville, new drains, etc., he has been unsparing in his attention and within a short time all these will become realities working for the welfare and growth expansion and grandeur of Ottawa. The fire brigade has been converted into one of the best to be found in any part of the world. The city's assessment has increased nearly a million dollars. Local improvements have swollen from \$77,194 in 1896 to \$321,263 in 1897. Our population has increased nearly 3,000. The main drainage scheme is completed and awaits the sanction of the electors. The government of Canada are about to give our city, instead of \$15,000 for services rendered in supplying water etc, over three times that amount. The work shops of the Ottawa and New York Railway are to be erected here and will give employment and support to many men and families. The Deschenes Light and Power Company are seeking to enter our city to compete with the Ottawa Electric Company in supplying electricity, and a million dollar railway depot is smiling coaxingly before us, and in the near future will add strength to the rare architectural richness with which Ottawa is adorned. It is needless to mention more. He has labored well, he has accomplished much, and the fruit from the seed he had sown has spread itself with beneficent effect in every quarter and laid a foundation upon which progressiveness sits contentedly and invites the enterprising and patriotic to share with her in her goodly and enviable growth and stability. Mayor Bingham of 1897 Ottawa gladly renews her confidence in you as her Chief Magistrate and welcomes you as her Mayor for 1898.

Mayor Bingham.

PRESS OPINIONS.

"Mayor Bingham is held by all to be a big-hearted man. * * * A citizen of good character and clean record has won the honors." *Ottawa Journal*, January 5, 1897.

"In the new mayor the citizens have a man in whom they may justly have every confidence." *Ottawa Free Press*, January 5, 1897.

"He is shrewd, energetic business man, accustomed to handle large and important enterprises. He is thoroughly honest, is a man of means, and of considerable independence of character, and is moreover, a genial, wholesouled, warm-hearted Irishman." *Ottawa Citizen*, January, 5 1897.

Mayor Bingham has been offered by acclamation the mayoralty of Ottawa for a second year. His services to the city and his record in the chair entitled him to that honor more than custom did. He cannot be charged with neglect to his duties, nor with any ambition other than of serving the whole people well, faithfully and to the best of his ability. He has in the council demeaned himself as becometh the mayor of a great and growing city.—*Ottawa Citizen*, Dec. 28th, '97.
